

4th Annual High Performance Spring Development Camp 2010

Atom – Midget (Open to players born 1993-2002)*

Skate, Stickhandle and Shoot at **full speed**. This elite spring program will improve your game so that you are able to use those heart stopping moves at AAA speed! Players are taught to maximize their potential through on and off ice training. The fundamental training system used is the BUKAC Hockey training program, ensuring a much higher level of play from each individual player within game settings. In addition to the skill training there is an opportunity for players to tryout for one of the Spring All Star teams (99 boys, 98 boys, 97 boys, 99/00 girls, 97/98 girls)

Motivating players to “get out of their comfort zone” while developing and improving the hockey skills needed to compete at an elite level.
